

Librascope will carry out the advanced Development phase for the U.S. Army's Communications Control System (CCS), a highly intelligent front-end communications processor to be used with artillery tactical data systems.

New Contract

Librascope Wins Competition For U.S. Army Contract

Librascope has been awarded a contract to carry out the Advanced Development phase for the U.S. Army's Communications Control System (CCS).

The CCS is a highly intelligent front-end communications processor to be used with artillery tactical data systems.

Hank Pinczower, Director, Army Programs, notes that design of the CCS will permit its use with existing and planned Army communications system beyond the year 2000.

Administered by the U.S. Army Electronics Command, Ft. Monmouth, New Jersey, the initial contract is for \$3.5 million and covers the delivery of six test type CCS's over a contract span of 20 months.

Librascope Family Roundup Set July 17

Mark your calendar now for the annual Librascope Family Roundup, which will be held on Saturday, July 17 at the Pickwick Recreation Center in Burbank.

"Over 2,000 employees and family members attended last year's event," said Frank Yapp, V.P., Personnel & Organization. "The Pickwick has been a most popular spot for our yearly summer get together."

Some of the activities planned
Continued on Page 2

The CCS's will be delivered to Ft. Sill, Oklahoma for incorporation into the realistic user environment of the TACFIRE Artillery Test Bed. Human engineering factors will be an important consideration in all phases of the tests.

Tom Charbonneau will serve as Librascope's CCS project manager.

At the conclusion of the Advanced Development phase, the U.S. Army plans to enter Engineering Development and Final Engineering Design phases. Each phase will be under a separate contract.

There's fun "a-plenty" in store for Librascope employees July 17 at the 1982 Family Roundup. For details concerning this popular annual event, see story at left.

Company Drive

New Incentives Added To Savings Bond Program

The annual U.S. Savings Bond campaign was conducted June 14-18 at Librascope, and according to Campaign Chairperson Nancy Laughlin, a goal of over 50 percent participation was set for this year. (Results of the drive are now being tabulated and will be announced shortly.)

"Due to changes in the bond program in recent years, Librascope's employee participation has fallen considerably," Mrs. Laughlin said.

"This year, however," she added, "Congress is expected to pass legislation which will link the yield on saving bonds to the interest rates on Treasury securities. This will provide a rate of interest more consistent with the market and should provide a new incentive for employees to put part of their savings in savings bonds."

Literature and posters describing the benefits of the new U.S. Savings Bonds were distributed during the campaign so that every employee had an opportunity to sign up.

"Leadership... in virtually everything we do or attempt... is a kind of tradition at Librascope," Mrs. Laughlin said. "We have never been satisfied with 'second-best' in anything. And, we are counting on that attitude carrying over to the Savings Bond Campaign this year. We want to post the best record in the Singer Company."

Librascope Exhibit Popular with Navy League Convention Visitors

Librascope's exhibit at the Annual Convention of the Navy League of the United States, April 6-8 in Washington, D.C., proved to be one of the most popular displays at the convention.

Among the many high ranking government officials and guests attracted to the Librascope display were CNO Admiral Thomas B. Hayward and his wife.

Admiral Hayward had to choose from among hundreds of exhibits those few he would visit. The Singer booth, shared by Librascope and Kearfott, was among those he selected.

Librascope's attendance at the Navy League gathering this year was highlighted by a reception given by Company personnel for convention visitors. Librascope President Maurice Center hosted the reception.

Exhibitors at the convention

were invited to make formal briefings to attending Navy Department personnel. This year Ken Luther briefed such groups on Librascope's position in the world market for submarine weapon control systems.

William Wendell, of Librascope's Washington Office, was Convention Chairman.

Family Roundup

Continued from page 1

for the day include a chuck wagon buffet, with BBQ ribs and chicken, square dancing, swimming, bowling, bingo, ice skating, and dancing to the foot-stomping music of the Red Dog Weber Band, back by popular demand.

"In addition, we've added some new attractions, including a cowboy hat contest," said Yapp. "All the details will be announced in an invitation being mailed to employees this month."

For employees who wish to exhibit and/or sell their handicrafts at the Arts & Crafts exhibit that day, information can be obtained by calling the Employee Services Office, X-1210.

In Memoriam

Rupert Vertin, 63, Maintenance mechanic.

Robert Clark, 23, Component Tech, died as a result of injuries received in a traffic accident.

Joining Librascope recently were programmers (left to right) Sebastian Van Alphen, David Desautels and Jim Reimbolt.

LIBRASCOPE FAMILY ROUNDUP ARTS / CRAFTS EXHIBIT

JULY 17, 1982

ENTRY FORM

The 3rd annual Librascope Arts & Crafts Exhibit will be held during the Librascope Family Roundup, at the Pickwick Recreation Center, Burbank, on July 17.

Please submit this form if you wish to display (and/or sell) your works of art. Family members are included.

Entrant's Name _____

Employee's Name _____

Bldg. _____ Ext. _____

Type of Entry:

Airbrush _____
Acrylic _____
Pastel _____
Pencil _____
Pen & Ink _____
Oils _____
Watercolors _____
Photography _____
Sculpture _____
Crafts (describe) _____
Other _____

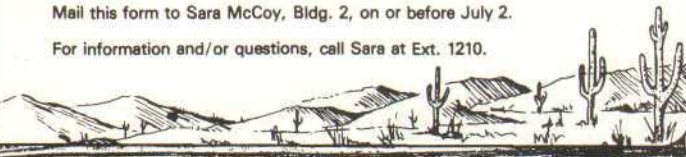

No. of Entries: _____

Easels and tables will be provided. Please indicate what you will need:

Mail this form to Sara McCoy, Bldg. 2, on or before July 2.

For information and/or questions, call Sara at Ext. 1210.

34 Librascope Teams Compete In Winter Bowling League

Another successful Winter League of bowling has just drawn to a close and for some 122 Librascope bowlers, it was one of the best seasons ever.

Librascope had 10 teams in Tuesday night Mixed-5 competition and 24 teams in Thursday night Trio competition. All games were played at Grand Central Bowl.

In Mixed-5 competition, first place went to *Wyh-Yh* - Jack Vierra, Lori Vidic, Joe Arzournaian, Debbie Stouffer and Jerry Fortner; second place to *The G.D.J.'s* - Laurie Jones, Evelyn Davis, Vivian Jones, Ken Gilbert and Ralph Jones; third place to *Semi-tuff* - Ron Maas, Pam Maas, Tom Polis, Rose Hensley and Ben Hensley.

Season high scores in Mixed-5 include: High Series Men - Ben Hensley with a 700 series; High Series Women - Rose Hensley, 683; High Game Men - Sam Frontino, 273; High Game Women - Laurie Jones, 253.

Top trios among the Thursday nighter were: First Place - *A-Bar-M* - Barbara Cummins, Harry Kuruma and Andy Wandler; Second Place - *Número Uno* - Ron Maas, Dee Haynie and Ben Hensley; Third Place - *Split Shorts* - John Spiller, Chris Anderson and Grace Kleinberg.

Season High Series honors went to: Men - Harry Kuruma, 460; Women - Diane Tonneslan, 453. High Game: Men - Andy Wandler, 257; Women - Frances Radunz, 262.

Although ahead 14-11 at the time of this photo, Librascope's "A" team bowed to Sweetwater, 54-51 in the championship playoff.

A Very Impressive Year

Librascope's "A" league basketball team had a very impressive year, finishing first in the Glendale A Minor league (first half) and fourth in the A Majors (second half).

According to Coach Ron Maas, the team fell a little short in the year-end playoff tournament, bowing to Sweetwater 54-51 in the championship game.

The Librascope "B" team (the "Over-the-Hill Gang") had a fun season. "Although we didn't make the playoff tournament, everyone had a good time," said Coach Don Burke.

Included on the "A" team roster were: guards - Kermit Williams, Steve Anderson, Bill Dunaway and Jim McKay; Centers - Paul Denzer and Harold Wall; and Forwards - John Hall, Jeff Maas, Emery

Schenk and Steve Wallace.

The B team roster includes: Guards - Camell Birch, Chris Gill, Gary Templeton and Chuck Young; Center - Ken Mandeville; and Forwards - Bob Barrett, Don Burke, Jr., Dave Dyer and Gary Mellor.

Action was hot and heavy. Shown here are Jim McKay, No. 18, and Emery Schenk, No. 3.

"A" team members, left to right back row: Jeff Maas, Harold Wall, Ron Maas, Coach, Paul Denzer, Emery Schenk; Front row: Steve Anderson, Jim McKay, Bill Dunaway, John Hall. Not Pictured: Kermit Williams, Steve Wallace.

I'M IN GREAT SHAPE with LIBRASCOPE

Librascope, in committing itself to helping employees achieve better health through physical fitness and health awareness, is offering a physical fitness class as the start of a Company-wide "GREAT SHAPE" campaign.

The exercise classes, which will be coed, will be conducted by the Glendale YMCA in the California Room at Librascope

beginning Monday, July 12.

Two sessions will be held. Session 1 will have classes on Monday and Wednesday from 3:45 p.m. to 4:45 p.m. Session 2 classes will be on Tuesday and Thursday from 4:15 p.m. to 5:15 p.m. Both sessions will run for 10 weeks, two classes per week.

The cost of the program will be \$40 per person with \$20 refundable upon completion of 15 of the 20 classes. Achievement awards will be presented to successful participants.

The physical fitness classes will be structured as follows: warm-up (stretching); muscle toning; aerobic endurance; coordination (balance); and cool down. Nutrition and related health information will be discussed during the classes as well.

A simple stress test will be conducted for each participant to determine his or her present physical condition, before and after the 10-week class. Shorts, and/or leotards, t-shirts and tennis shoes are recommended apparel for the exercise class. Mats will be provided.

Employees interested in enrolling in one of the classes, can sign-up at the Employee Service Office, Bldg. 2, or the Nurse's Office, Bldg. 17.

NEW LIBRASCOPE PARKING DECAL - Over 1,340 parking decals have been issued to 849 Librascope employees since the program was initiated in April. The decals are being used to help control parking and facilitate access to the premises. They are available to employees at the Main Guard Station.

Telecommunications' new "Mail Stop" system, developed by Tony Sanchez, Group Leader of Records & Mail Room, above, is meeting the challenge of Librascope's growth.

Telecommunications is Meeting the Challenge Of Librascope's Growth

Librascope's rapid growth in recent months has placed quite a strain on the Telecommunications Department, but according to Gordon Madsen, Manager of Telecommunications, employees within the department are meeting the challenge in typical Librascope fashion.

"With more new people, more new buildings and the dramatic growth in our volume of mail, we were faced with daily confusion concerning where new people were located...and how to get the mail to them," Madsen explained.

Telecommunications' new "Mail Stop" system, developed by Tony Sanchez, Group Leader of Records & Mail Room, is meeting the challenge.

Here's how it works.

Each mail delivery location now has a "Mail Stop" number instead of the previous department location description. Stickers with the Mail Stop number are posted at each mail location.

"That Mail Stop number

becomes your 'return address,'" says Sanchez. "Use it faithfully, and your mail cannot go astray, even if the mail delivery clerk is new on the job."

Sanchez emphasized that Mail Stop numbers must be used on all correspondence - including your return address on outgoing U.S. Mail - if the system is to work properly.

To assist employees in using the new Mail Stop numbers, a complete listing of numbers will be included in a new Communications Directory, scheduled for distribution in mid-June.

"In the new directory we will list all the usual information such as employee names, departments and buildings, telephone extensions, etc., plus the Mail Stop number for each name," Sanchez explained.

"If you should fail to find the Mail Stop number you are seeking, please call the Mail Room, Ext. 1273, and we will help you locate it quickly," he said.
